

Sluggit

A Computer Science blog and resource

Team Members: Jasmine Dupree(SM), Maximilian Brain, Tarum Fraz, Diego Garcia, Hope Ashcraft, Chris Gradwohl(PO)

Document Name: Release Plan

Release Date: 06/06/2017

Revision Number: 1.1

Revision Date: 04/10/2017

High Level Goals

Sluggit is a public resource for those interested in Computer Science topics and for those who would like to share and discover new Computer Science related content.

We would like Sluggit to be able to do the following:

- Post blog to Sluggit public feed so others users can read
- Post links, images and other sources to Sluggit public feed so that other users can discover new content
- Post projects to Sluggit public feed and to user Profile
- Post code snippets to Sluggit public feed
- Like posts from other users
- Like counter for all posts
- Customizable user profiles
- Create blog posts using a code/text editor plugin tool
- Comment on posts in Sluggit feed
- Upvote favorite posts
- Find new content based on user history and preference.

User Stories for Release

Story Point Scale:

1 2 3 5 8 13 21 34

1pt - changing a html layout, changing css styles

8pts - creating authorized user login OAUTH2, UI design

34pts - creating a text editor plugin, implementing clean DB logic

Sprint 1 (32 story points)

1. As a Sluggit user, I want to signup and login, so that I can post content to Sluggit. (8 story points)
2. As a Sluggit user, I want to view the Sluggit public feed so that I can discover new content from the Sluggit community. (3 story points)
3. As a Sluggit user, I want to post text to the Sluggit public feed, so that I can share my ideas with the Sluggit community. (21 story points)

Sprint 2 (29 story points)

1. As a Sluggit user, I want to signup and login quickly and easily(Google, Github, Facebook authentication) with a clean intuitive login UI, so that I enjoy using Sluggit. (8 story points)
2. As a Sluggit user, I want to view a clean, simple public feed, so that I can enjoy reading and discovering new content. (8 story points)
3. As a Sluggit user, I want to be able to comment, like, and upvote posts so that I can shape the social context of the Sluggit community. (13 story points)

Sprint 3 (55 story points)

1. As a Sluggit user, I want to write blog posts using an intuitive text editor so that posting to Sluggit is easy and fun. (34 story points)
2. As a Sluggit user, I want to customize my Sluggit user profile so that my online identity can reflect my ideals and beliefs. (21 story points)

Product Backlog

1. As a Sluggit user, I want to discover new content based on my like history so that Sluggit is more enjoyable to use. (34 story points)
2. As a Sluggit user, I want to post projects and code snippets to the Sluggit public feed so that Sluggit can be a better resource to computer science students. (34 story points)
3. As a Sluggit user, I want to be able to integrate my web presence by connecting Github, Medium, Stack Overflow, Dribble, Behance profiles and content so that Sluggit can be a hub for my entire online presence. (21 story points)
