Sluggit

A Computer Science blog and resource

Team Members: Jasmine Dupree(SM), Maximilian Brain, Tarum Fraz, Diego Garcia, Hope Ashcraft, Chris Gradwohl(PO)

Document Name: Scrum Meeting Summary #1

Scrum Meeting Date: 04/26/2017

Revision Number: 1.1

Revision Date: 04/26/17

Chris Gradwohl(PO)

What did you do yesterday?
- Built the server application, routing logic, api and connected a mongoDB
- Wrote DB schema, native user authentication strategy,
- Created front end scaffolding, angular components, routing logic, added bootstrap

What are you going to do today?
- Finish the native strategy auth/login components, research testing.
- Re design the routing and front end design, documentation, sprint 2 planning document

Is there anything in your way?
- How to use angular services to login a user and send data like the json web token?
- How to write a unit test for user login?
- How do I make a angular form for login data using data binding?

Maximillian Brain

What did you do yesterday?
- Tried to get the passport plugin working with our existing code

What are you going to do today?
- Get the updated code and reimplement my code.
- Get passport strategies up and running with Google and Facebook

Is there anything in your way?
- Constantly changing code

Name Diego Garcia

What did you do yesterday?
> research angular/ mess with login html page

What are you going to do today?
> Get a working layout for the login page

Is there anything in your way?
> Getting used to angular implementation

Name Hope Ashcraft

What did you do yesterday?
- I researched Angular by watching tutorials and playing around with it

What are you going to do today?
- Work with Jasmine to update the front end
- Add more functionality to the the feed page specifically posts

Is there anything in your way?
- Understanding how everything in our stack is connected, specifically connecting the front end to the back end

Jasmine Dupree

What did you do yesterday?

-Researched Angular using tutorials

-Created basic home page

What are you going to do today?

-Connect front end with back end

Is there anything in your way?

-Figuring out angular and connecting front end to back end

Tarum Fraz

What did you do yesterday?

- Ran existing code, and tried to understand what was wrong with it
- Looked up Passport tutorials

What are you going to do today?

- Look at more Passport tutorials
- Figure out the best way to implement this

Is there anything in your way?

- Merging code
